

BALLA KOUSHIK

Hyderabad, India — +91 9392858341 — koushikballa09@gmail.com

 B-koushik-09 —  koushik-balla

Technical Skills

Programming Languages:	C++, Python, Java, C, JavaScript
Web Development:	React.js, Node.js, Express.js, REST APIs, FastAPI, HTML5, CSS3
Databases:	MySQL, MongoDB, ChromaDB
AI / Machine Learning:	RAG, LLM Integration, Prompt Engineering, Sentence Transformers, Vector Embeddings
Core Computer Science:	Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks, Software Engineering
Tools & Platforms:	Git, GitHub, VS Code, Postman, Vercel, Render

Education

VNR Vignana Jyothi Institute of Engineering and Technology	2024 – 2027
B.Tech in Computer Science Engineering	CGPA: 8.61
Government Polytechnic, Nalgonda	2021 – 2024
Diploma in Computer Science Engineering	CGPA: 9.1

Experience

Full Stack Web Development Intern — Elevance Skills	Jan 2026 – Mar 2026
- Developed a full-stack recruitment platform using Next.js, Node.js, Express.js, and MongoDB with JWT authentication, role-based access control, and REST API integration. - Implemented application tracking, a resume builder, email-based OTP verification, subscription features, and a social feed supporting posts and comments.	
AI & ML Intern — Edunet Foundation (AICTE & IBM SkillsBuild)	Jan 2026 – Feb 2026
- Completed a 6-week virtual internship focused on Machine Learning and Artificial Intelligence concepts and their practical applications. - Gained hands-on experience with Python, data preprocessing, exploratory data analysis, feature engineering, model training, and evaluation using Scikit-learn.	

Projects

AI RAG Chatbot — Python, ChromaDB, LLM, RAG	 Code
- Built a Retrieval-Augmented Generation (RAG) chatbot to answer queries from 100+ college webpages and institutional PDF documents. - Implemented web scraping, document chunking, BGE embeddings, ChromaDB vector indexing, and semantic search for relevant information retrieval. - Integrated Google Gemini with retrieved context through a FastAPI backend to generate source-grounded responses with citations.	
Smart Student Management System — React.js, Node.js, Express.js, MongoDB	 Code
- Developed a MERN-based student management system with CRUD operations, JWT authentication, role-based access control, and protected routes. - Implemented debounced search, filtering, pagination, activity logging, CSV export, and analytics dashboards for student data management.	
Plant Disease Classification System — Python, CNN, Transfer Learning	 Code
- Developed a CNN-based plant disease classification system using transfer learning techniques for automated crop disease detection. - Applied image preprocessing and augmentation methods and integrated the model into an intuitive prediction interface.	

Achievements

- Secured Global Rank 610 among 53,931 participants in Smart Interviews DSA contests.
- Earned the Diamond Coder certification from Smart Interviews for consistent performance in coding assessments.

Certifications

- AI/ML Course Completion – Microsoft Elevate
- MERN Stack Development Certification – Mind Luster
