🔗 B-koushik-09

Objective

Motivated Computer Science and Engineering student with a strong foundation in C++, Data Structures, Web Development, and AI/ML. Passionate about understanding how systems work and building scalable, efficient, and impactful software solutions. Seeking a Software Engineer role to apply problem-solving skills and contribute to real-world applications.

Education

VNR Vignana Jyothi Institute of Engineering and Technology	2024 – 2027
B.Tech (CSE) – CGPA: 8.6	University: JNTUH
Government Polytechnic, Nalgonda	2021–2024
Diploma(CSE) — CGPA: 9.1	Board: SBTET
MJPTBC Welfare Residential School (Gurukul)	2021
10th - GPA: 10	Board: SSC

Technical Skills

Programming Languages: C, C++ (DSA), Java (OOPs) , Python

Web Technologies: MERN Stack (React.js, Node.js, Express.js, MongoDB), JavaScript, REST APIs

Databases and tools: MySQL, Git, GitHub

AI & ML: CNN, Transfer Learning, Retrieval-Augmented Generation, LLM Integration

Experience

Full Stack Web Development Intern

Elevance Skills

Jan 2026 – Mar 2026

github.com/B-koushik-09/internarea

- Engineered full-stack web applications with 5+ features using React.js, Node.js, Express.js, and MongoDB, implementing secure authentication and RESTful APIs.
- Optimized application performance and scalability while gaining hands-on experience in debugging, deployment, and dynamic UI development.

AI & ML Intern

Edunet Foundation (AICTE & IBM SkillsBuild)

Jan 2026 – Feb 2026

github.com/B-koushik-09/student-placement-prediction

- Developed machine learning models using CNN and data preprocessing techniques during a 6-week AI/ML internship.
- Applied end-to-end ML workflows to solve real-world problems and improve model performance.

Projects

AI RAG Chatbot (Ongoing)

Python, ChromaDB, LLM, RAG

github.com/B-koushik-09/vnr-rag-chatbot

- Designed a context-aware chatbot using Retrieval-Augmented Generation (RAG) with web scraping, embeddings, and vector search.
- Integrated LLM-based response generation with retrieved domain-specific data to enhance accuracy and reduce hallucinations.
- Engineered an efficient pipeline for document indexing and real-time query handling.

Internship Platform

React.js, Node.js, Express.js, MongoDB, PayPal

github.com/B-koushik-09/internarea

- Built a scalable full-stack platform with authentication, user profiles, and internship application tracking.
- Implemented secure login, resume builder, and subscription module with PayPal integration.
- Developed RESTful APIs to enable efficient CRUD operations and seamless frontend-backend communication.

Leaf Disease Detection

Python, CNN, Transfer Learning

github.com/B-koushik-09/agritech

- Developed a CNN-based image classification model for plant disease detection using transfer learning.
- Applied data preprocessing and augmentation techniques to improve model performance and generalization.
- Integrated a frontend interface with AI-driven insights for real-time disease prediction and recommendations.

Portfolio Website

React.js, AOS, CSS

github.com/B-koushik-09/Portfolio

- Built a responsive portfolio showcasing projects, skills, and achievements with modern UI/UX design.
- Implemented smooth animations and interactive components to enhance user engagement.
- Optimized layout and performance for seamless experience across devices.

Achievements

- Certified as **Diamond Coder** at Smart Interviews for consistent performance in Data Structures and Algorithms.
- Secured a **Global Rank of 610** among **53,931 participants** in DSA contests conducted by Smart Interviews.
- Solved **200+ DSA problems** across platforms like LeetCode and Codeforces.
- Achieved a maximum rating of **1867** on LeetCode.

Certifications

- Programming Using C++ – Infosys Springboard
- Java Fundamentals – Infosys Springboard
- Full Stack Web Development Training – Null class
- AI/ML Course Completion – Microsoft Elevate

Strengths

- Strong problem-solving and analytical skills
- Effective communication and teamwork abilities
- Project management skills
- Quick learner with adaptability to new technologies

Hobbies

- Solving coding challenges and participating in contests
- Exploring new technologies and development tools
- Watching stand-up comedy and entertainment content
